PROFILE AT A GLANCE

A practicing barber and educator whose work focuses on craft, technical control, professional standards, client communication, and the reasoning behind a finished result. Carlos approaches evaluation by separating visible evidence from assumption and by connecting technique to proportion, balance, finish, intent, and consistency.

Credential status above reflects the South Carolina Board of Barber Examiners public lookup checked October 1, 2026. PBA membership does not imply selection, appointment, or endorsement as a PBA NAHA judge.

Craft informed by daily professional work.

Carlos's strongest discipline is barbering. His professional and instructional work includes clipper systems, fades, tapers, shear work, beard work, consultation, finishing, varied hair textures, sanitation, service standards, and one-to-one client experience.

Technical barbering Precision cutting, clipper control, transitions, line work, shear work, beard design, consultation, finishing, and texture-aware execution.	Professional standards Sanitation, infection control, tool discipline, client communication, timing, documentation, service recovery, and consistent experience design.
Instruction Structured theory, live demonstration, guided practice, performance feedback, assessment, remediation, reflection, and career preparation.	Bilingual delivery Clear professional vocabulary, demonstration, repetition, and teach-back for English- and Spanish-speaking learners.

An educator's responsibility is to examine both the result and the decisions the work demonstrates.

01 - OBSERVE Read what is visible Identify technique, proportion, balance, texture, transitions, detail, and finish without replacing evidence with preference.	02 - ANALYZE Connect decisions to outcome Consider how tool control, structure, coherence, and execution carry an idea through to completion.
03 - EVALUATE Apply a consistent standard Distinguish personal taste from professional assessment and give fair weight to the completed work.	04 - ARTICULATE Explain the reasoning Describe the professional basis for a conclusion with clarity, respect, and attention to what the work demonstrates.

De Barbero Dotado a Artista Leyenda

Carlos created a bilingual professional-development system that connects technical barbering with consultation, client experience, professional discipline, business foundations, digital presence, and career direction. It is presented as education and guided development; completion does not represent a state license or guaranteed professional outcome.

Evidence, leadership, and public record.

Tulpi The Barber Founder, barbering professional, and educator. Daily work behind the chair informs instruction, consultation, technical decisions, and client experience.	Barber Gallery Suite A private model shaped by years behind the chair, managing barbershops, and working alongside many barbers. Carlos keeps his practice active, serves select and high-profile clients discreetly, and teaches students in the same building.
United Multimedia Marketing, branding, websites, content, and responsible AI support Carlos's educational mission. He teaches the next generation to use modern tools with judgment to improve communication, productivity, professional visibility, and business growth.	Industry contribution Booksy Ambassador and educational content collaborator. His documented work with L3VEL3 includes El Portal production resources and an educational appearance in Santiago, Chile, extending his contribution across education, media, and professional collaboration.

South Carolina Voyager

Published interview, August 5, 2026, covering Carlos's professional path, barbering, education, and entrepreneurship.

Booksy industry education feature

A public professional feature focused on practical content creation and communication with A-ROD and Tulpi.

WHY JUDGING CONSIDERATION

Carlos would bring an active practitioner's eye, an instructor's duty to evaluate consistently, and a bilingual educator's respect for how professionals communicate their intent. His perspective is grounded in barbering, haircutting, texture, education, and the professional thinking visible in execution. This profile supports a request for consideration only.
